CLEANING KITS

Technical data & Specification

Evolis proposes several cleaning kits, according to your needs and to your printer. They are composed of specific tools, each enabling to clean a piece of the printer. Plastic card printing requires a routine printer cleaning as cards can have high static charges and can attract dust and dirt, to help you to maintain your printer's performance and lifespan.

General Specification

- **Type:** Cleaning Kits
- **Features:**

A5011: Ultra Cleaning kit, for a complete cleaning of the printer (5 pre-saturated cleaning cards, 5 swabs, 1 box of 60 pre-saturated cleaning wipes). For Tattoo², Tattoo RW, Pebble[4], Dualys[3], Quantum², Securion
